

## INSTRUCTION MANUAL

# OVERVIEW

T3TRIS is a 3D version of the popular game Tetris. The player is given one 3D piece at a time to place in a rectangular prism. When a horizontal plane is filled, the plane disappears. The object of the game is to try to clear as many planes as possible and gain the highest score.

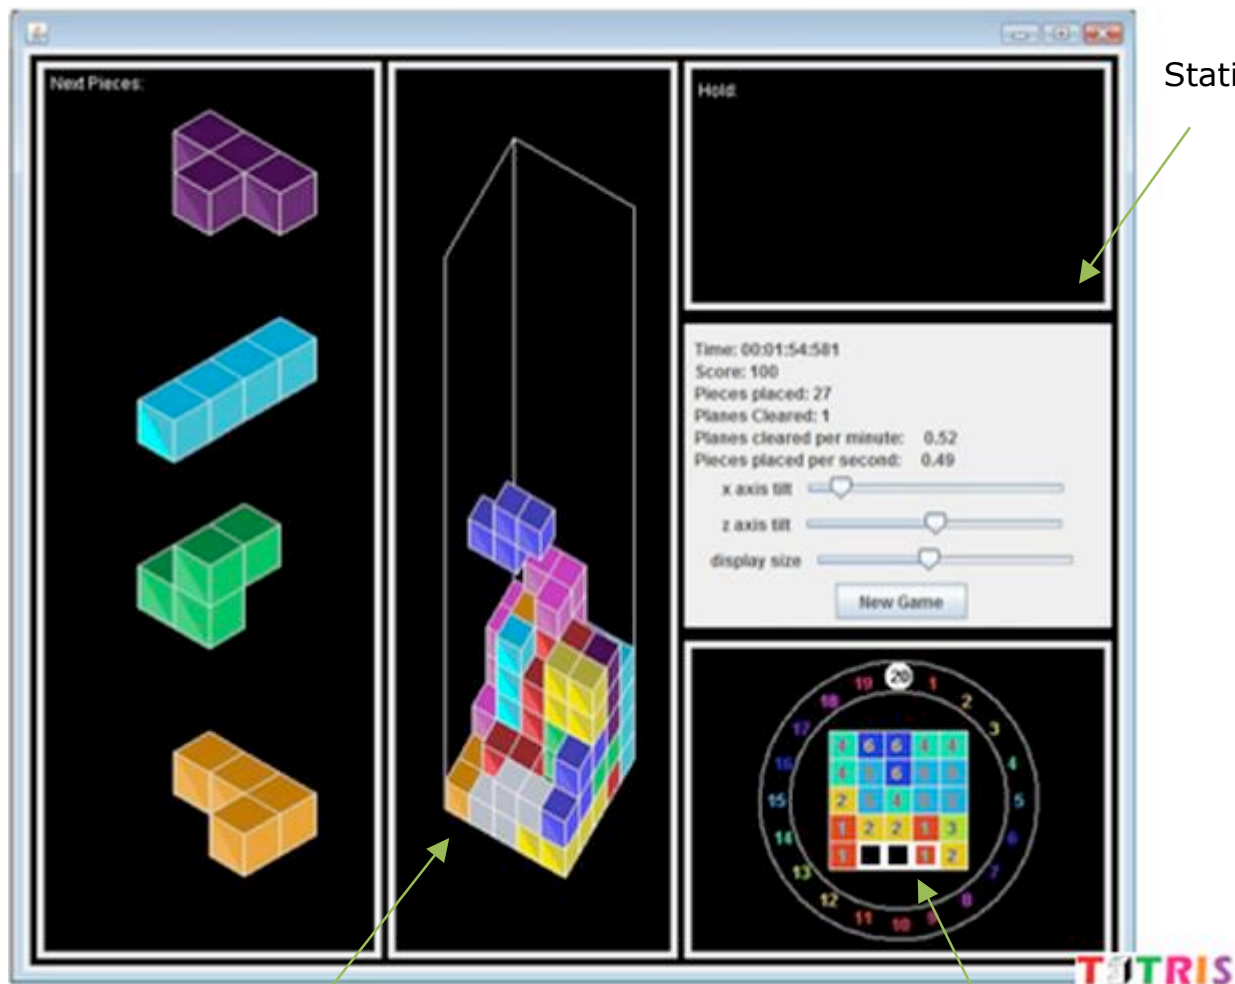

## Differences between 2D and 3D Tetris:

	2D	3D
Pieces	Tetrominoes	Tetracubes
Clearing	Lines	Planes
Space	Rectangle	Rectangular Prism
Directions	2	4
Rotations	2	6
